

Air 1 Radio is an important part of the community of Post/Lubbock. The music is clean and info provided is positive. The broadcasting never degrades others and is a place where all ages can listen and I don't worry about my daughter learning about things at an inappropriate age.

If Air1 is displaced by a LPFM station that does not have the same programming then the community will be losing a resource that helps children be part of the mainstream without the negative effects of modern pop music culture.

This serves a great need in public and I do not want the few choices that I have being removed. As an American I believe that we all have the right to decide in what is most appropriate for our family. The loss of Air1 is NOT a choice if you decide to make this to happen. It will NOT be in the best interest of the Public.

Thank you for hearing me.
